For Immediate Release: *September 16, 2009*

Washington DC - Congressman Duncan Hunter released the following statement in anticipation of new video from ACORN's San Diego office showing an employee answering questions about human smuggling:

"It is outrageous that ACORN still receives taxpayer funding following repeated revelations of unethical behavior. ACORN should not only be investigated for what is apparently a consistent pattern of misconduct, but it should also not receive another penny of taxpayer support."

Congressman Hunter is a cosponsor of H.R. 3571, legislation that would deny federal funding for ACORN.
